QUALITY PROCEDURE

While we wait for our certification by the international Quality Standards Association, our quality control procedures for structural steel work are as follows:

- In accordance with schedule and work orders, QC programmed is to be established.
- Drawings to be checked to see if the correct revision of drawings is used renumber weld on drawings.
- Check the material to ensure correct material is used.
- Check weld preparations and setup make sure that correct welding procedure and welding electrodes are used.
- Inspect the completed weld, ascertain the cap is acceptable, weld is clean and free from spatter undercut.
- All completed spool structure welds to be identified and marked, welds and welder number identification to be added to item.
- QA approval to be obtained from client for completed weld.
- All surfaces to be cleaned after fabrication is completed and painted at our factory as per the recommended specified system.

HEALTH AND SAFETY POLICY

We are committed to keep the standards of health, safety & environmental activities in all Of our projects. For this one we are following all these activities:

- Comply with statutory and other relevant bodies.
- Maintaining pollution control and environment protection steps.
- We are providing very good accommodation for our whole labors which is satisfying with Qatar Labor Law.
- Proper PPE is mandatory for all our labors.
- We are providing medical cards (issued by Qatar Health Department) to all our employees.
- All of our employees are insured from all type of accidents while working.
- Safety customers requirement and satisfy their requirements.
- To meet an accident free project, giving proper training to all our employees for working any unsafe working style.

MAN POWER

Success could not be achieved unless there is a well-qualified, trained and expert team is leading the job. **Damasco Trading & Contracting** employees are selected upon specific criteria to emphasize appropriate selection of the staff. From the senior staff to the junior helpers, everybody is responsible for his part of job. Team work concepts adopted for us to focus the team performance rather than single man performance. All employees are subject for efficiency evaluation for their interest, dedication, loyalty & productivity.
